

talk it over

issues of union concern

How do we get raises, protect our pension and much more?

Together we will negotiate new union contracts with UC for more than 12,000 researchers, technicians and health care professionals.

Our current contracts expire next fall, but it's a lengthy process. Now is the time to begin, so we can get our next raises on time!

Bargaining succeeds when members engage in the process.

- Members set our priorities
- Members pressure the UC administration through mobilization
- Members serve on mobilizing and bargaining teams
- Members ratify our contracts

Timeline to a new contract

Here are our current union contracts.
